

DR. CINDY'S

CELL VOLUME REPAIR AMPOULE

Your expertise. Your signature product.

A Korean-developed professional ampoule concept that can be shaped around your name, your clients and your market.

Concept brand shown for private brand visualization only.

A professional care concept your clients can see and feel

Professional volume care for mature, depleted-looking skin

Designed for clients concerned with visible dryness, fine lines, dullness and loss of elasticity.

RECOMMENDED FOR

Mature skin showing

- dryness · fine lines
- dullness
- loss of elasticity

Dr. Cindy's

VOLUME CARE
PROTOCOL

Syringe-type topical applicator · For external cosmetic use

01

FULLER & SMOOTHER

Targeted care for dry lines and depleted-looking areas.

02

BRIGHTER RADIANCE

A clearer, more luminous finish for dull-looking skin.

03

SUPPLE COMFORT

Nourishing softness, elasticity and lasting comfort.

WHERE IT FITS

Ideal for professional consultation, targeted clinic care and continued home-care routines.

A clear care story helps clients understand the role of the product—and helps you present it with confidence under your own brand.

A real reference formula, ready to be shaped for your market

The concept begins with a Korean-developed oil-serum reference and a distinctive syringe-type applicator format.

01 VOLUFILINE™ COMPLEX

For fuller, smoother-looking skin and a refined volume-care position.

02 α-BISABOLOL

A familiar soothing ingredient supporting comfort in targeted care.

03 ROSEHIP OIL

A nourishing botanical oil for dry, mature-looking skin.

FORMAT

4 mL × 3 syringe-type applicators

TARGET

RETAIL

PHP 5,000 / set

HOW TO USE

- 1 Dispense a small amount.
- 2 Apply to selected areas.
- 3 Gently smooth until absorbed.

REFERENCE INCI

Ethylhexyl Palmitate · Caprylic/Capric Triglyceride · Hydrogenated Polyisobutene · Rosa Canina Fruit Oil · Anemarrhena Asphodeloides Root Extract · Bisabolol · Tocopheryl Acetate

Reference formula only. Final INCI, claims, packaging and labeling require manufacturer confirmation and target-market regulatory review.
